

MULTI-PURPOSE COOPERATIVE

ABOUT US

The Dayawan Handmade Paper is a livelihood project of the San Roque Handmade Paper Products Multi-purpose Cooperative. The organization is operating in the municipality of Villanueva, Misamis Oriental. The group is composed of 32 families supported by STEAG State Power Inc, the government of Villanueva and Phividec Industrial Authority.

Handmade paper production was taught in November 2004 to 10 women, who learned how to create handmade paper from abaca fiber and crafting them into artistic cards, jewelry boxes, penholders, hair mats and other items.

HANDCRAFTED FOR LOVE

Dayawan Handmade Paper Products aims to spread messages of love and care through exquisite natural designs. These products are made of “sinamay” or abaca fibers expertly woven through a traditional mat weaving technique, and are adorned with pressed flowers, leaves and weeds.

HANDCRAFTED TOWARDS PROGRESS

More than a livelihood project, the San Roque community has produced women who have become competitive artists and entrepreneurs, whose craftsmanship and dedication to quality run a promising micro-enterprise. This venture has empowered women to be active contributors in their families and their community. The organization has also partnered with Capilli Trading Inc. in the production of hair mats for pollution remediation and agricultural support. Today, this project serves as our mission towards promoting self-sufficiency and progress.
